

FREQUENTLY ASKED QUESTIONS ABOUT OUR FAMILY BUILDING GRANT PROGRAM

What types of grants does the Chicago Coalition for Family Building offer?

The Chicago Coalition for Family Building offers two types of grants. You can only apply for ONE type of grant.

- **Financial Assistance Grants:** The Chicago Coalition for Family Building offers financial grants (maximum award is \$10,000) for eligible costs towards family building. You should apply for this grant if you have insurance coverage for IVF and require third party reproduction, donor eggs, donor sperm or use of a gestational carrier. Funds will be paid directly to the service provider(s) and not to the individual receiving the grant.
- **IVF cycle grant:** If you receive an IVF cycle grant you will receive a donated IVF cycle from one of our partner practices. You should apply for this grant if you do not have insurance coverage for IVF and are planning on pursuing IVF with your own eggs. Please note that we try to align services with the practice where you have already established care, but there is no guarantee that a Donated Services Grant will be with the applicant's current physician and you may be granted a cycle at another practice.

What does an IVF Cycle Grant cover?

An IVF cycle grant covers the following:

- All professional medical fees for patient's pre-cycle physical exam (if required and usually done by REI office), ovulation monitoring, egg retrieval, laboratory services (oocyte ID, ICSI, embryo prep), embryo transfer
- Unless otherwise covered by insurance, laboratory fees for hormonal monitoring (E2, P4, HCG up to four tests each)

The donated IVF cycle EXCLUDES the following:

- FDA testing for patient and spouse, and for gamete donors or surrogates
- Anesthesia for egg retrieval
- Genetic screening / testing of intended parents
- PGD / PGS
- Cryopreservation and storage fees for gametes and/or embryos
- Medication

What are the eligibility criteria for a Family Building Grant?

- Reside in Illinois, Indiana, Missouri, Wisconsin or Iowa
- Have a diagnosis of infertility certified by a medical provider, with the exception of the following:

- Applicants who are single, or part of a same sex couple, are eligible to submit applications for a Family Building Grant
- Applicants who are applying for a grant for egg freezing for medical indications (cancer, endometriosis, other medical conditions that threaten fertility)
- Have an annual household income of less than \$200,000
- For requests for infertility treatment, you MUST have completed all required medical testing within the specified time frames. Applicants who do have this information within required time frames will not be considered. Incomplete applications will not be sent on to review by the medical advisory board
- ***If you are applying for a grant to do IUI, IVF, Gestational Carrier with your own eggs, or Egg Freezing for Medical Indications, you MUST meet ALL of the following criteria:***
 - 1) be 41 years or younger by January 1, 2021
 - 2) have a body mass index (BMI) < 40
 - 3) have an FSH level of < 15
 - 4) an AMH level of >0.5.
 - Applicants who do not meet ALL of these criteria will not have their applications reviewed.
- ***If you are applying for a grant for IUI, IVF or FET (utilizing your own eggs or donor eggs), you must have a body mass index less than 40.***

Which grant should I apply for?

If you are 41 or younger and planning to pursue IVF with your own eggs then you should apply for an IVF cycle grant. If you need assistance to cover the cost of IUI, frozen embryo transfer, donor sperm, donor egg or gestational carrier then apply for a financial services grant. If you have insurance coverage for IVF (even partial coverage) you are not eligible for an IVF cycle grant

My husband and I are both carriers for the same genetic disease and need IVF and pre-implantation genetic diagnosis. Which grant should we apply for?

You should apply for the specialty grant “Sophie’s Gift – PGD for Life.” This special grant is funded specifically for couples who carry a genetic disease and wish to prevent transmission to their child.

How many grants are awarded?

We estimate that **10** IVF cycle grants and 5 financial grants will be awarded in 2020. Final numbers are still contingent upon funding.

Can I submit a paper application instead of using the online application?

No. Only applications submitted through our online system will be reviewed. The link to the application site will go live June 15th, 2020

I recently had (egg vitrification, a IVF cycle, etc.) and my insurance did not cover the cost. Am I eligible to apply for a Family Building Grant?

Unfortunately, past procedures or previously incurred costs are not eligible for Family Building Grant funds.

What do the Financial Assistance Grants cover?

Financial Assistance Grants can be used for the following expenses:

- medications
- embryo cryopreservation (embryo freezing)
- embryo donation
- pre-implantation genetic screening/diagnosis (PGS/PGD)
- third party reproduction (costs of securing donor egg, donor sperm, and gestational carrier)
- egg freezing due to cancer, medical diseases that impair infertility or elective indication
- vasectomy reversal
- TESE
- adoption fees from any licensed adoption agency
- attorney fees for adoption or third-party reproductive cases

The cost of my IVF cycle, legal costs, donor fees, etc. exceed \$10,000. Can I apply for more money in a Financial Assistance grant?

No, the Chicago Coalition for Family Building will not accept applications requesting more than \$10,000.

Will Family Building Grants cover the cost of future child-rearing expenses, such as diapers or daycare costs?

No. Family Building Grants will only cover the expenses listed above.

What other Donated Services Grants do you offer besides IVF?

Donated Services Grants are dependent on generous donations from the Chicago Coalition for Family Building Partners. In addition to IVF cycles, we may offer PGS/PGD, and legal services for third party reproduction. Applications will be reviewed by the medical advisory board and recommendations for additional services will be made by the board. You cannot apply for additional services but please describe your needs accurately in your personal statement to help guide the board.

How will the grant monies for Financial Assistance Grants be distributed?

The Chicago Coalition for Family Building will work with the grant recipient in organizing payments to your fertility clinic, adoption or third-party agency. No payments will be made to grant recipients.

Can I apply for a Family Building Grant for a vasectomy reversal?

Yes, a Family Building Grant may be used for a vasectomy reversal.

My partner previously had a vasectomy. Can I apply for a grant to do IVF?

Yes. A Family Building Grant may be used for IVF in this situation.

Can a Family Building Grant be used to cover the cost of embryo storage after my treatment is complete?

No. Funds must be used specifically to help with the cost of building a family.

We would like to apply for a Family Building Grant for adoption, but we are just starting the process. Are we eligible to apply?

All applicants requesting support for adoption must provide a letter from their adoption agency that they have completed the home study process. No exceptions will be made.

I will be 42 in November 2021. Am I eligible to apply for a Family Building Grant to use my own eggs for IVF?

Women must be 41 years or younger by January 1, 2021 to be eligible to apply for a Family Building Grant to utilize your own eggs.

How long do I have to use the Family Building Grant?

Family Building Grants – both Financial Assistance and Donated Service Grants – must be used with twelve months from the date of the award. Treatment must be initiated within 6 months or the grant will be re-allocated

Is there a maximum annual income to apply?

Yes. Your annual household income must be less than \$200,000 (pre-tax) to apply for a Family Building Grant. We will verify this information from your 2019 tax return. In order to be eligible to apply, a tax return must be received from all parties applying for a grant; no exceptions will be made.

I am a student with no income and I did not file a tax return last year. Am I eligible to apply?

No. Without a tax return naming the individuals applying, we are unable to verify your income and therefore cannot consider your application.

I am currently moving to Illinois, Indiana or Wisconsin after the application deadline. Am I eligible to apply?

No. You must be a resident of Illinois, Indiana, Missouri, Wisconsin or Iowa at the time of application in order to apply.

When will I be notified whether I receive a grant?

We anticipate notifying applicants of grant decisions in September 2020. The entire grant process is managed by volunteer staff, and we take these decisions very seriously. Therefore, we do not rush this process. Recipients who are awarded grants will receive an email and a phone call. Please include the best number to reach you at on your application. Applicants that did not receive a grant will be notified by email.

What kind of testing do I need to submit for a Family Building Grant?

The following tests MUST be completed within the specific timeframes:

	Timeframe	IVF - Fresh Cycle	IVF - Frozen Embryo Transfer (FET)	IVF with Donor Eggs	IVF with Donor Sperm	Gestational Carrier/Surrogacy with Intended Parents Egg/Sperm	Gestational Carrier/Surrogacy with Donor Egg	Egg Freezing for Medical Indications
Ovarian Reserve Testing								
Day 3 FSH	Within the past year	Yes	N/A	N/A	Yes	Yes	N/A	Yes
Day 3 LH		Yes	N/A	N/A	Yes	Yes	N/A	Yes
Day 3 Estradiol		Yes	N/A	N/A	Yes	Yes	N/A	Yes
Antral Follicle Count		Yes	N/A	N/A	Yes	Yes	N/A	Yes
AMH Level		Yes	N/A	N/A	Yes	Yes	N/A	Yes
Other Testing								
Saline Ultrasound or Hysterosalpingogram (HSG)	Within past year	Yes	Yes	Yes	Yes	N/A	N/A	N/A
Body Mass Index		Yes	Yes	Yes	Yes	Yes	N/A	Yes
Semen Analysis	Within past 2 years	Yes	N/A	Yes	N/A	Yes	Yes	N/A

Do I need to submit lab results if I am applying for funds for adoption or surrogacy?

No, you do not need to submit lab results to apply for Family Building Grants to cover adoption or surrogacy costs.

I am a single man planning to use my own sperm with a donor egg and a surrogate. Do I need to submit a semen analysis with my Family Building Grant application?

Yes, a semen analysis is required.

What should I write about in my personal statement?

The personal statement is the best way to let the Medical Advisory Board know who you are and why you should receive a grant. It is a large part of the scoring process and is a great way to increase your chances of getting a grant. The applications are scored by the medical advisory board and the personal statement accounts for a large number of points. Applications that do not have personal statements will likely not have enough points to secure a grant.

Do I have to share my story publicly if I win a grant?

We do require grant recipients to be willing to share photos of themselves, their story via Facebook, our web page and other social media outlets. We publish our success stories to inspire others and share our mission.

What else is required of me if I win a grant?

We require our recipients to attend the Run for Life and hope that you will join us in our fundraising efforts by forming a fundraising team. You are not required to raise a specific amount of money but please know, every dollar helps!!

Is my \$25 application fee refunded if I do not receive a grant?

No. The application fee covers the cost of using the online application system. We are unable to refund any application fees.

I am part of a same sex couple. We are hoping to have my wife carry the baby with my eggs. What information do you need?

Both women will need a letter from their fertility practice and copy of the required bloodwork and testing. The partner planning to donate eggs needs ovarian reserve testing, FSH, AMH, estradiol, antral follicle count and must meet our age and ovarian reserve criteria. The partner planning to carry must have a documented normal uterine evaluation and meet BMI requirements.

Do I need to provide my Ovarian Reserve Test information if I am planning to use donor eggs?

No, results are not required if you are planning to use donor eggs.

I am planning on using Family Building Grant funds for a gestational surrogate utilizing previously frozen embryos. Do I need to provide my ovarian reserve testing and blood work results? Does my husband need to provide his semen analysis?

As the embryos have already been created, you do not need to provide ovarian reserve testing, blood work or semen analysis results.

I'd like to apply for a Family Building Grant to utilize my own eggs with a family member as a gestational surrogate. What information do I need to provide?

The applicant would need to provide the following information: ovarian reserve testing, sperm analysis and a letter certifying that the intended gestational carrier has received medical clearance.
